## About SPCOP

Shri Gajanan Maharaj Shikshan Prasarak Mandal's Sharadchandra Pawar College of Pharmacy (SPCOP), is one of the Premier Educational Society in Pune District.

SPCOP is located centrally at equidistance from four major cities like Pune, Nashik, Ahmednagar & Kalyan (Mumbai). SPCOP was established in Year 2004 with the aim to provide higher and professional educational facility to the students from rural territory.

SPCOP is functioning with its vision for social

transformation & upliftment of rural masses through education, training and research.

We at SPCOP are working with a team spirit, dedication, sincerity and enthusiasm to build ourselves and the society as a whole with the help of our team of highly qualified faculty. We believe in giving beyond what is necessary, excelling beyond the defined norms and achieving success beyond all expectations. Students here are provided education to contribute to the needs of a changing society.

## PRINCIPAL DESK

Quality of education provided to the child plays a vital role in his/her life. A value based education and a platform to develop foundation of career is the need and right of each child and it has to be provided to them at any cost. We at SPCOP strive to give our student's curriculum knowledge through classroom lecture programs and beyond the classroom extra-co-curricular activities for their development and growth.

We understand the challenges of industry and corporates come across in recruiting the right person for the right role from the various options available to you.

As a Principal, I believe that the country's economic prosperity depends on the degree of partnership that exists between the educational institutions and the corporate world. The educational institutions should constantly be in interaction with the corporate to know their need and thereby accordingly prepare the skilled professionals.

Understanding the interest of industries and students in recent recruitment drives, we have designed our placement brochure for Year of Passing 2021-22 batch for more opportunities to our UG & PG students. We value dreams of our students and their parents and for them we are always eager to provide best platforms.

Our students are encouraged to participate in

various competitions such as group discussion, power point presentation, seminars etc. in order to enhance their confidence, reading, writing and communication skills. To prepare and train aspiring learners to face recruitment, the students are provided with exhaustive training with relevance to communication skills, aptitude test and overall development for personal & professional grooming along with value-added certificate courses.

These training programs give the students tips on how to crack aptitude, group discussion, interview skills and resume preparation.

We look forward to provide a platform to our pharmacy graduates to excel their careers ahead through training and placement activities. We ensure to produce dynamic environment for our recruiters to shape the new pharmacy horizons. We strongly believe in our stakeholders, alumni and collaborators towards effective engagement in our student's career enrichment.

At the outset, let me wish you a very successful recruiting year.

I take pleasure in extending a warm invitation to visit our campus for the Final Placements. Everything that is being done is for the betterment of our students. Therefore, let us together SERVE TO LEAD.....

**Dr. Dama Ganesh. Y.**

## T & P CELL MESSAGE

We consider it to be an honor and opportunity to present to you a group of young, dynamic individuals who have been groomed to face challenges that lie ahead for them in the industry and corporate world as a whole.

SPCOP is an exciting place to study and grow. A meticulous academic procedure has equipped students with proficient and special skills to do extremely well in various demanding situations with ease and confidence. Interaction with industry is done on a regular basis as many speakers from well-known companies share their expertise with our students. Our teaching methodologies (which includes presentations, projects, educational and industrial tours and participation in seminars and conferences, sports and cultural activities) helps towards acquiring skills sought after and needed by organizations.

The present batch of our young promising pharmacists is working hard to be a part of the large dynamic industry. The intensive training and the encouraging learning environment of our institute has made them proficient in the

basic as well as specialized fields of relevance. The various value-added courses being imparted at the Institute have given adequate exposure to our students. Apart from core knowledge, our students are competent in soft skills too.

SPCOP has provided a perfect environment for developing the overall personality of the students. We are confident that these young men and women would be an asset to your organization through their capabilities and their talent. Our aim is to actively assist you in attracting and identifying the individuals best suited to your needs and in developing a successful recruitment relationship.

We also express our sincere gratitude to all those organizations who have extended their active co-operation to the department in accomplishing its endeavour successfully. It is indeed an honour to present our students to your esteemed organizations and I look forward to your cooperation in the placements of our students.

We wish all the best to our students for their future endeavors.

**Prof. Adsare Vaishali. A.**

## About T & P Cell

SPCOP focus is to make our students employable. To make this happen we have implemented various value added courses. The students get text book knowledge in their classroom, through books or other training materials. They get good Percentage of marks. But to make ready for employment they need something more.

Our college always strives to provide that something more to our students. The training begins in the first year of degree college and continues till the final year. The programs in the first year focus on self development and communication skills. In the second year the focus moves on to technical skill development. The final year focuses on the student making a successful transition from college to corporate life.

With the changing educational trends, versatility in educational courses, availability of masses of qualified personnel, the competition for job acquisition and job sustainability is becoming more and more tough. To get an edge over the competitors, students are left with no choice but to add values to their skills to exhibit their true potential.

From the expertise, our students gain knowledge through the value added programmes, which enable them to face the formidable challenges of the future.

### Objectives:

- To bring students at par with professional ethics.
- To compete the global world by providing a platform to develop self.
- To inculcate organizational behaviour
- To equip themselves to enhance their curriculum.
- To develop their personality.
- To inculcate social values.
- To make students presentable and employable.

The Placement cell serves to assist the student to explore the opportunities provided by a prospective employer. It helps students to plan their career by providing information and guiding them about the companies for placement. The Placement record of the college is a proof of the confidence shown by the industry/ corporate in our students. We extend our sincere thanks to the Indian Corporate World for showing this trust in our students.

## Value Added Certificate Courses

To bridge the gap between the academic and industry need, Value Added Certificate Courses are conducted regularly in our College. It is important for higher education institutions to supplement the curriculum to make students better prepared to meet industry demands as well as develop their own interests and aptitudes.

**Following various Value added certificate courses are conducted at SPCOP :**

- Soft Skill and Personality Development
- Disease Reversal Programme
- Intellectual Property Rights
- Clinical Research
- Regulatory Affairs
- Pharmacovigilance

These courses are conducted by professionals and industry experts and help students stand apart from the rest in the job market by adding further value to their resume.
