2. Plastic Awareness Camp

Sharadchandra Pawar college of pharmacy, Otur arranged the Plastic Awareness Camp for Second year B. Pharm students on the occasion of world Pollution control day at Shivneri Fort. A total number of sixty students were taken for the field work. The purpose of visit was to collect plastic material on Fort. On this occasion Principle Sir shared his view on Plastic Waste recycling. We explained about harmful health effect of plastic on human health like it may pollute Groundwater and soil. Burning of plastic results into formation of a class of flame retardants called as Halogens. Collectively, these harmful chemicals are known to cause the following severe health problems: cancer, endometriosis, neurological damage, endocrine

disruption, birth defects and child developmental disorders, reproductive damage, immune damage, asthma, and multiple organ damage. After reaching the destination different groups were formed to collect the plastic bottles and other plastic material. In reality, plastic is not a problem. The problem is irresponsible human behavior is disposing of plastic. If disposed of sensibly, it can actually do well to the environment. But people or tourist who come to visit fort come and enjoy the place and make it dirty by throwing plastic bottle, plastic wrappers and many more. So we motivated students to collect plastic from the area and make it plastic free. Our students also worked well and collected all the material and then given for further process.

8. HINDI DIN

Hindi Day is celebrated annually on 14th September in premises of Shri Gajanan Maharaj Shikshan Prasarak Mandal's Sharadchandra Pawar College of Pharmacy. All the teaching and nonteaching Staff gather together for celebration of Hindi bhasha diwas. Principal, Dr. Dama Sir delivered speech on importance of Hindi language. He expressed that, it is a day to stress upon the importance of Hindi language which is losing its significance in the country where English speaking population is considered smarter. It is sad to see how during job

interviews, people who speak English are given preference over the others. It clearly shows that Hindi day is all about **unity celebration, reflection, advocacy** and action whatever that looks like globally at a local level on that day student and staff share their thoughts regarding implementation of the innovations that shape their future societies using Hindi language. In this way Hindi din was Celebrated. Due to Covid-19 Pandemic Situation, Online quotes on importance of Hindi language shared with all SPCOP students.

10. National Education Day

SGMSPM,s Sharad Chandra Pawar College of Pharmacy celebrated Education Day on 11th of November 2021 in presence of all the teaching, nonteaching staff and students of SPCOP in the college premises in a very professional manner. National Education Day is an annual observance in India to commemorate the birth anniversary of Maulana Abul Kalam Azad, the first education minister of independent India, who served from 15 August 1947 until 2 February 1958. National Education Day of India is celebrated on 11 November every year. Principal of SPCOP, Dr. G.Y. Dama sir delivered a talk on this occasion. He discussed that Maulana fought for country's freedom and in 1912, he started a weekly journal in Urdu called Al-Hilal to increase the revolutionary recruits. For his contribution – both as an educationist as a freedom fighter – he was awarded the

Bharat Ratna in 1992. He strongly advocated the education of women. In 1949, in the Central Assembly, he emphasised the importance of imparting instruction in modern sciences and knowledge. He also said that no programme of national education can be appropriate if it does not give full consideration to the education and advancement of one-half of the society – that is the women. He is also responsible in establishing most of the major cultural and literary academies we have today, including the Sangeet Natak Academy, Lalit Kala Academy, Sahitya Academy as well as the Indian Council for Cultural Relations. The first IIT, IISc, School of Planning and Architecture and the University Grants Commission were established under his tenure. In this way programme ended with the few memories of Maulana Abul Kalam Azad.

16. Voter's Day Celebration

In order to encourage more young voters to take part in the political process, Government of India has decided to celebrate January 25 every year as "National Voters' Day". It has been started from 25 January 2011 to mark Commission's foundation day. The Principal SPCOP, Dr. Dama G. Y., delivered the introductory speech. He said, 'National Voters' Day was celebrated on 25th January every year, at all levels in India. This is the day of establishment of Election Commission of India. This is the

12th year of its celebration. It is our prime duty to take part in all the electoral process of the nation.' Later, Principal, Dr. Dama G.Y. dictated the voters pledge as, "We, the Citizens of India, having abiding faith in democracy, hereby pledge to uphold the democratic traditions of our country and the dignity of free, fair and peaceful elections, and to vote in every election fearlessly and without being influenced by considerations of religion, race, caste, community, language or any other inducement."

GENERAL ACTIVITY

17. World Pharmacist Day

World Pharmacists Day on September 25 is a celebration of every pharmacist, pharmaceutical scientist, and others who are part of this field. Four million people are engaged in this profession around the globe. World Pharmacists Day is thus not only a welcome event, but it is also a crucial holiday to honor the role these guys play in improving global health outcomes. The day is marked by events and activities sponsored by various governmental and non-governmental organizations. Globally, they all have one common goal — **to increase awareness about pharmacists and their roles.** Today's pharmacist performs multiple vital duties. Their tasks include identifying and providing people with the right medication, overseeing

stocking and restocking of medicines, and staying ahead of medicine expiry dates. This is probably why the International Pharmaceutical Federation (FIP) established this day to honor all pharmacists. The premier global body to represent all pharmacists and pharmaceutical scientists, the FIP aims to support the pharmacist network and the development of this profession. The reason behind the date for the annual celebrations can also be traced back to the FIP. According to the founders of this day, they wanted to honor the organization that was doing so much for pharmacists. This is why they picked the date the FIP was established — September 25, 1912

HEALTHY DIET

Dr. Abhishek D. Meher

Department of Pharmaceutics SPCOP, Otur

“When diet is wrong, medicine is of no use. When diet is correct, medicine is of no need.”

Eating a healthy diet is not about strict limitations, staying unrealistically thin, or depriving yourself of the foods you love. Rather, it's about feeling great, having more energy, improving your health, and boosting your mood.

Healthy eating doesn't have to be overly complicated. The truth is that while some specific foods or nutrients have been shown to have a beneficial effect on mood, it's your overall dietary pattern that is most important. Eating food that is as close as possible to the way nature made it can make

a huge difference to the way you think, look, and feel.

• *The fundamentals of healthy diet :*

While some extreme diets may suggest otherwise, we all need a balance of protein, fat, carbohydrates, fiber, vitamins, and minerals in our diets to sustain a healthy body..

“ Exercise is king. Nutrition is queen. Put them together and you've got a kingdom.”

“Your diet is a bank account. Good food choices are good investments.

Power of Positive Thinking

Ms. Ashwini Gawade

Assistant professor spcop otur, pune

It is quite common to hear people say: "Think positive!", to someone who feels down and worried. Most people do not take these words seriously, as they do not know what they really mean, or do not consider them as useful and effective. How many people do you know, who stop to think what the power of positive thinking means?

The power of thoughts is a mighty power that is always shaping our lives. This shaping is usually done subconsciously, but it is possible to make the process a conscious one. Even if the idea seems strange, give it a try, as 'you have nothing to lose, but only to gain. Forget what others might say or think about you if you change the way you think.

Attitude Vs Thinking Positive attitude helps to cope more easily with the daily

affairs of life. It brings optimism into your life, and makes it easier to avoid worry and negative thinking. If you adopt it as a way of life, it will bring constructive changes into your life, and makes them happier, brighter and more successful. With a positive attitude you see the bright side of life, become optimistic and expect the best to happen. It is certainly a state of mind that is well worth developing and strengthening.

Positive thinking people are not daunted by failures and obstacles. If things don't turn out well or as expected, they will try again. True positive thinking is not just saying that everything will be okay, as a lip service, and at the same time think about failure.

TRAFFIC JAMS IN INDIA

Vaishnvi Sonawane

Third Year SPCOP

So here I was going from my home town to Thane which normally take 2 hrs but that day it took 6:30 hrs and we were shocked. While stuck in traffic I was thinking reason for traffic jam but I could find none, because there were no accidents but yes there were potholes everywhere cars and bikes were stuck on one place. I was hearing Ambulance siren and was worried about the patient or the patient the ambulance was going to pick up .But what can be solution for this ? Government has given solution but yeh! We are Indians and we don't like to follow traffic rules . Traffic Jams have now become a part of our daily lives.

It is due to increasing Traffic Jams that most of the time people get late for their work. To avoid getting late, people start driving faster than the prescribed speed limit. This increases the chances of accidents. Because of the issue of increasing Traffic Jams, kids also have to leave their homes early in the morning for school. Many kids spend more than an hour on a school bus because of road congestion even if their schools are a few minutes to hardly half an hour away

Solving the Problem of Traffic Jams

Nowadays the government is starting to take some positive steps toward this big problem. Public transport frequency and efficiency are developing day by day. The authorities are also taking care of public transport vehicles, online booking facilities, and following up with scheduled time slots. As people are also becoming more and more aware of the problems arising out of Traffic Jams, they are becoming more and more responsible as well. People are now preferring carpooling and public transport like local trains, metro, buses and so on. They are reducing the usage of their own personal scooters, bikes, cars, etc. Simultaneously, there are many more improvements that are happening in strengthening modes of public transport. Metro and Subways help people to maintain smooth travelling in their day to day lives. With the help of modern technology such as Google Maps, people can now avoid Traffic Jams. If people and the government come together then we can overcome the problem of Traffic Jams.

So we can solve this huge problem by doing this simple steps as carpooling, using public transport will also help in decreasing air pollution.

FRIENDSHIP: A MIRACULOUS BONDING

Maniyar Rubina Nasir
Third Year SPCOP

Tieing friendship bands on hands is not a symbol of true friendship.

True friendship defines-

Sometimes sharing, Sometimes caring, Sometimes suggesting, Sometimes
advising, Sometimes arguing.

There is no relation with friends but there is something miraculous bonding with
friends.

Friends make our life happy and we enjoy every moment of life.

There is one person with whom we share our feelings, thoughts.

They are integral part of our life.

They are for fun, fight & so on fighting with friends is like as withdrawing our
ego & attitude.

Getting our friend on right path is true friendship.

There is nothing without friends & there is everything with friends.

Just celebrating friendship day for one week with friend is not a true friendship.

In short everyday is friendship day.

Every moment with friends is precious!
